

Find the Equivalent Fractions

LO: I can write the equivalent fraction.

Fill in the numerator to make the fractions equivalent.

1. $\frac{1}{3} = \frac{\square}{6}$

2. $\frac{2}{3} = \frac{\square}{6}$

3. $\frac{1}{3} = \frac{\square}{12}$

4. $\frac{1}{6} = \frac{\square}{12}$

5. $\frac{5}{6} = \frac{\square}{12}$

6. $\frac{2}{3} = \frac{\square}{24}$

7. $\frac{1}{6} = \frac{\square}{24}$

8. $\frac{1}{3} = \frac{\square}{24}$

9. $\frac{5}{6} = \frac{\square}{24}$

10. $\frac{1}{12} = \frac{\square}{24}$

11. $\frac{5}{12} = \frac{\square}{24}$

12. $\frac{11}{12} = \frac{\square}{24}$

Find the Equivalent Fractions

LO: I can write the equivalent fraction.

Fill in the numerator to make the fractions equivalent.

1. $\frac{1}{3} = \frac{\square}{6}$

2. $\frac{2}{3} = \frac{\square}{6}$

3. $\frac{1}{3} = \frac{\square}{12}$

4. $\frac{1}{6} = \frac{\square}{12}$

5. $\frac{5}{6} = \frac{\square}{12}$

6. $\frac{2}{3} = \frac{\square}{24}$

7. $\frac{1}{6} = \frac{\square}{24}$

8. $\frac{1}{3} = \frac{\square}{24}$

9. $\frac{5}{6} = \frac{\square}{24}$

10. $\frac{1}{12} = \frac{\square}{24}$

11. $\frac{5}{12} = \frac{\square}{24}$

12. $\frac{11}{12} = \frac{\square}{24}$

Find the Equivalent Fractions **Answers**

Fill in the numerator to make the fractions equivalent.

Question	Answer
1	2
2	4
3	4
4	2
5	10
6	16
7	4
8	8
9	20
10	2
11	10
12	22
